

Wanna work for Prismake?

We are...

- a tight-knit team of professionals with a fresh look on the mobile world
- born in Dragon Valley, surrounded by a fancy startup community
- proud of successfully conducting numerous mobile projects & gaining a bunch of satisfied customers
- growing like crazy to become millionaires

You...

- have experience building stable React applications that scale
- know how to organize your code to avoid ending up in a mess
- are familiar with react data flow management solutions (we like both redux and mobx)
- don't have a hard time styling complex layouts that adjust to screen size and changing requirements over time. We use styled-components with postcss
- are able to sit next to us and have some fun writing little app with jumping pandas in minutes

You will get...

- Flexible working hours
- 5000 - 7000 net (B2B)
- A cool office environment - Star Wars T-shirts accepted
- Goodies in the kitchen (free snacks and drinks)
- To work remotely whenever you need
- Hundreds of Pandas to cheer you up or code with you
- Liters of hot wine and other energy drinks
- + whatever you wish for :)
