ABB Marine & Ports is transforming the industry through electrical, digital and connected solutions. Our innovative technologies are redefining the future, bringing new levels of reliability, efficiency and sustainability to shipping while making our ports and terminals safer, greener and more productive. You will be part of Marine IT Operational Team working on Remote Diagnostic System (RDS). RDS is already installed worldwide, on board over 200 vessels. Dedicated solutions enable monitoring of physical assets in the power and propulsion chain, enabling remote troubleshooting and diagnostics which leads to reduced or prevented downtime.
