Join ABB and work in a team that is dedicated to creating a future where innovative digital technologies allow greater access to cleaner energy. We are an international pioneering technology leader that is writing the future of industrial digitalization. At the forefront is our Corporate Technology Center which provides industry leading software and deep domain expertise to help the world's most asset-intensive industries solve their biggest challenges. You will contribute significantly to successful results in our Research & Development organization dedicated for Process Industries. Seize this unique opportunity and see your work transformed in a tangible product. As a Full Stack .Net Developer you will be a member of the scrum team in Kraków, developing solutions for Smart Manufacturing business.

#### Your responsibilities

- In the first month expect to: frequent meetings with members of the virtual team; configure the development environment; become familiar with our software development process.
- In the first six months expect to: implement solutions in accordance with customer requirements; cooperate closely with QA and DevOps; be a part of code refactoring sessions; actively participate in developing branch strategies.
- In the first year expect to: build reusable libraries; provide solutions to improve performance; be a promoter of innovative technologies; build cloud services and develop mobile app.

#### Your background

- Experience in .NET and web development technologies, including C#, HTML 5, CSS 3, Blazor/JavaScript/TypeScript;
- Understanding of web applications, REST API;
- Understanding of ORM;
- Experience in using Git;
- Good oral and written communication skills in English;
- Cloud-native technologies such as Docker, Kubernetes are nice to have;
- Microservices – ReactJS are nice to have;
- Prototyping & UX design – Figma is nice to have.

#### More about us

We look forward to receiving your application (documents submitted in English are appreciated). If you want to discover more about ABB, take another look at our website [www.abb.com](http://www.abb.com). #LI-Hybrid  
We offer:

- An interesting, paid internship in a company promoting innovative and modern technologies;
