

# INSURANCE OPERATIONS ANALYST

## JOB DESCRIPTION

- reading and interpreting insurance documents
- analyzing and processing data in our systems
- working in close cooperation with our partners across Europe (actuaries and underwriters) and insurance market experts in other Xceedance locations across the globe
- focusing on delivering top notch strategic operations and analytical support throughout the entire end-to-end insurance product lifecycle

## WHAT WE EXPECT FROM YOU

- very good knowledge of **English**
- good knowledge of **French** or **German** (at least B2)
- analytical and problem solving skills
- strong Excel skills
- insurance experience will be a plus
- attention to details
- experience in analyzing documents (financial and non-financial) and drawing conclusions
- creativity and ability to question status quo
- positive personality along with great sense of humor (must-have – no negotiations here!)
